WOMEN. Designing men, through alluring and cunningly worded advertisements constantly endeavor to work upon the feelings of sick and alling women by inviting them "to write to a woman (i) and secure a woman's sympathy." It is well to remember that the best sympathy is to be had at home and not from strangers, perhaps hundreds of miles distant. The object of the sick is to get well, and however precious sympathy may be, it never yet cured a seriously afflicted woman. While the sympathy of your milliner or dressmaker might be appreciated and be just as beneficial if not more so, there sym-pathy from a stranger, yet it can not effect your cure if you are an ailing woman It is loudly proclaimed through the press

that "a woman can best understand a woman's ailments," and on this ground sick women are invited to "write to a woman" and get the benefit of a woman's advice. The sort of "understanding of her ailments wanted by a sick woman is a trained medical understanding. If a woman has this trained medical knowledge she understands trained medical knowledge she understands woman's aliments not as a rooman, but as a physician. If she is not a doctor she cannot understand the aliments at all, and cannot treat them successfully, because she lacks the necessary training.
